MNNIT ALLAHABAD

Motilal Nehru National Institute of Technology Allahabad, Allahabad (MNNIT) is an Institute with total commitment to quality and excellence in academic pursuits. It was established in the year 1961 as a joint enterprise of Government of India and Government of Uttar Pradesh as MNREC, and was an associated college of University of Allahabad. On June 26, 2002 MNREC was transformed into National Institute of Technology fully funded by Government of India. The Institute has been granted the status of institution of national importance w.e.f. 15th August 2007.

DEPARTMENT OF CIVIL ENGINEERING

The Institute had begun with offering Bachelor Degree Programmes in Civil Engineering. The Civil Engineering Department offers a Bachelor of Technology and four regular post graduate courses in Structural, Geotechnical, Environmental and Environmental Geotechnology Engineering. It also offers part-time course for in-service engineers in above mentioned specialization. The Department is also a recognized QIP (Quality Improvement Program) Centre for post graduate studies. Department also offers PhD Programme in above specialization. The course curriculum is up-to-date which cover both traditional and recent developments. It also provides research and consultancy services to government/non-government organizations.

Recent Advances in Geotechnical Engineering

(RAGE-2018)

February 5, 2018

Organized
by

Department of Civil Engineering
Motilal Nehru National Institute of Technology
Allahabad - 211004, INDIA

&

Indian Geotechnical Society
Allahabad Chapter

GENERAL

Geotechnical Engineering is very important for urban planning and development activities around the world, particularly in India. Geotechnical engineers/academician/ researchers/scientists play a crucial role in the design decisions of the structures constructed offshore and onshore. Recent Advances in Geotechnical Engineering being the indispensable components, provides valuable inputs for the analysis and design phase, and assists the designer's in decision making. The workshop addresses in detail the various aspects related to advances in geotechnical engineering.

WORKSHOP OBJECTIVE

The objective of this workshop would be to disseminate the participants with the widely and latest process and design used in geotechnical engineering practices and their emerging applications in geotechnical, geo-environmental and transportation engineering. Upon successful completion of this workshop, participants will be able to come across the recent techniques adopted in appropriate manner in Geotechnical Engineering.

WHO WILL BE BENEFITTED

Faculty, Officers, Engineers and Scientists working in geotechnical/geo-environmental/transportation engineering related areas like Research Organizations, Roads & Buildings Department, Consulting companies, NGOs, and self-employed practitioners engaged in the planning, analysis, design, construction, operation, maintenance and management of geotechnical activities would benefit from the proposed workshop. As participants are expected from all over India, this workshop would provide an excellent opportunity for the participants to interact with one another and discuss problems and solutions of mutual interest.

SPEAKERS

The speaker constitutes faculty members/experts from IIT's/ MNNIT/ Other NIT's/ Reputed Institute/ Geotechnical Consultant in relevant area. Some speakers who will be the part of workshop are as follows:

1. Prof. M.N. Viladkar, IIT Roorkee
2. Prof. N.K. Samadhiya, IIT Roorkee
3. Prof. M. Singh, IIT Roorkee
4. Prof. R.K. Srivastava, MNNIT Allahabad
5. Dr. V.A. Sawant, IIT Roorkee
6. Dr. J.P. Sahu, IIT Roorkee
